RE: *Lipari v. General Electric et al* W.D. Mo Case no. 07-0849 Warrantless Wiretapping

Dear Mr. Hesse,

This letter is to inform you that you and your corporation will likely be added as defendants in the ongoing 18 U.S.C. § 1962 *et seq.* (“RICO”) private civil action should you fail to comply.

Your company engaged in warrantless wiretapping of my associates and myself and unlawfully disclosed my business records during the period of time from March 20, 2005 till February 16, 2008. Under your direction, Sprint is presently participating in a continuing racketeering enterprise.

Sprint Corp and your predecessor knew your eavesdropping and facilitation of illegal searches and seizures of my communicated information was unlawful and in violation of my constitutional rights. Sprint under the direction of Gary D. Forsee in an illegal conspiracy with FBI Director Robert Mueller engaged in a continuing pattern and practice to violate the privacy and confidential domestic relationships of myself and other Sprint and Nextel customers. As part of your conspiracy during the subject time period Sprint officials participated in the unlawful control of local and state law enforcement officials by federal government administrative branch members in an unlawful enterprise through Operation Falcon and as telecommunications industry representatives in the FBI and Department of Homeland Security program InfraGard .

Sprint officials openly became “made” members of the unlawful administrative branch enterprise and enjoyed privileges and membership in InfraGard where they networked with members of the unlawful enterprise and were directed to make available my private and business property in my electronic communications for the purposes of interfering and obstructing justice in the Novation LLC antitrust litigation¹ I am pursuing to gain entry into the national market for hospital supplies.

Sprint officials with recordings of my calls, tracking of my movements and reporting of my associates knew that I am not violating any laws and that my activities were solely to enter the market for hospital supplies. Despite this, Sprint officials continued to violate federal laws to further the goal of the executive branch enterprise members in obstructing my competition with Novation LLC and in preventing my ability to litigate claims against Novation LLC and its cartel members.

In addition to the *per se* unlawfulness of your activities to interfere with and injure me in my business through your participation in warrantless wiretapping, you knew that you had misrepresented the capabilities of your equipment to your customers and government officials including members of the unlawful enterprise in the executive branch. My business calls were dropped and disrupted and sound quality was degraded because of the signal strength weakened by your unlawful activities. Sprint had misrepresented its eavesdropping was undetectable.

You also knew that your eavesdropping for other than the above mentioned reasons was detectable by participants in my business calls, including even by the occasional audio presence of Sprint officials and the spliced in government client monitoring my calls. Much of the time Sprint’s signal strength is so degraded by the eavesdropping that my voice sounds artificial like single side band transmissions and the bad sound quality interferes with my obtaining capitalization for my business.

While Sprint was unlawfully monitoring my location and phone communications for the purpose of participating in the RICO enterprise to obstruct my federal antitrust litigation and to prevent my entry into the national market for hospital supplies as Sprint was doing on Friday, March 30th, 2007, I was forced to disconnect the SIM chips and batteries from two of my business phones at approximately 1:15 pm CST to protect myself from Sprint’s targeting of my location while driving a day earlier than scheduled to a meeting with Lowell Ewalt in

¹ *Medical Supply Chain, Inc. v. Novation LLC, et al*, Western District of Missouri case #05-210-CV-W-ODS filed on March 9, 2005

Branson, Missouri. I reconnected the SIM chips and batteries after safely returning home at approximately 10:00 pm CST on March 30th, 2007 at which time Sprint resumed its unlawful surveillance.

The meeting was represented to me as an opportunity to obtain assistance in my litigation against the Novation LLC cartel. I was in fear of my safety to make the meeting and to return due to the remoteness of Branson. I was deprived of the security enjoyed by cell phone users in highway travel because of Sprint's participation in Operation Falcon.

On or about August 12, 2006 while Sprint was engaged in unlawful surveillance of my associates and myself, we drove without prior planning or announcement to Chicago, Illinois. We did not know to take the SIM chips and batteries out of our Sprint Nextel phones. On the way we by chance met a former US Department of Justice official and a Federal Mediation and Conciliation Services official who learned of our plans to travel to Chicago for the purpose of investigating what had been going wrong in the court system regarding my Novation LLC litigation.

After leaving the chance meeting in Nebraska, both my associate and I were telephoned one immediately after the other with pretext calls as we approached Chicago for the purpose of Sprint giving members of the unlawful administrative branch enterprise our grid coordinates to facilitate their obstruction of our investigation related to the Novation LLC litigation.

During the subject time period, you knew your unlawful activities directed against me and my associates to prevent me from entering the market for hospital supplies aided the Novation LLC hospital supply monopoly in artificially inflating healthcare costs, the main factor in destroying American factory and other living wage jobs which has lead to the significant decline of Sprint's revenue and the losses of Sprint's shareholders as your customer bases loses its ability to afford Sprint's services.

On August 18, 2006 you became aware that a federal court had determined your conduct was unlawful and yet you and your company continued to break the law and facilitate the misconduct of government officials in the violation of the constitution.

During the subject period Sprint Corp and you as its president and later as its chief executive officer committed numerous counts of wire fraud to deprive me of the "honest services" of FBI Director Robert Mueller as a public official.

Mr. Dan Hesse, you have until April 20th, 2008 in which to provide me at your expense in a PC readable electronic format all records, communications, phone logs, recordings, names and addresses of people with knowledge or who participated and other documents related to the above described violations of law or I will seek damages in court against yourself and your corporation that exceed your available capital.

Should you respond by threatening me either by unsubstantiated Rule 11 threats or otherwise, I will treat any such threat as a predicate RICO extortion offense or as an act in restraint of trade.

Sincerely,

Samuel Lipari
